While every effort is made to ensure accuracy in this program, graduation filing deadlines, printing deadlines, and degree audit adjustments can prevent inclusion of graduates' names or may result in publishing names of individuals not completing degree requirements. This program, therefore, should not be used to determine a student's official academic or degree status.

9:30 a.m.
Cooperative Graduate Programs • Robert W. Plaster
School of Business Administration • School of Education
Bachelor of General Studies

Processional: "Pomp and Circumstance"	Elgar <i>Missouri Southern Commencement Ensemble</i>

About Our Speaker

Dr. James Jackson, professor of Biology and Environmental Health and a longtime member of the faculty of Missouri Southern State University was born and raised in the state of Colorado. He has been on the faculty of Missouri Southern for 36 years.

Dr. Jackson received his bachelor's degree in botany from Colorado State University, his masters in botany from the University of Northern Colorado and his Ph.D. in botany from Rutgers University.

Dr. Jackson was an assistant professor at the University of Northern Colorado and an instructor and botanical editor at the *Denver Botanic Gardens*.

In 1990 Dr. Jackson completed a sabbatical in England. He is a visiting scholar at Oxford University's Wolfson College.

He has been married to his wife Brenda for 41 years. She has taught at MSSU for 25 years.

Dr. Jackson has won several awards from the University. These include Outstanding Teacher of a Freshman Class (1983); the Governor's Award for Excellence in Higher Education (1994); Outstanding Academic advisor (spring 2008) and Outstanding Teacher (spring 2011).

He has published a book for the Missouri Department of Natural resources, published many journal articles and produced numerous research reports for the National Park Service.

Missouri Southern State University/Northwest Missouri State University

Master of Science in Education

Farris, Tabitha Lyn ‡

Instructional Technology

Neosho

The first graduates of the cooperative graduate programs received diplomas at Missouri Southern State University during the spring 2006 ceremony. This milestone was possible when MSSU and Northwest Missouri State University collaborated to combine their resources and expand higher education opportunities in Southwest Missouri and the Four-States region.

In addition to Northwest, MSSU has since forged partnerships with Missouri State University, Southeast Missouri State University, University of Missouri-St. Louis and the University of Missouri-Kansas City to unite efforts to deliver the programs with traditional classroom teaching and state-of-the-art distance learning tools using faculty from each of the universities.

Effective August 2003, the Missouri General Assembly passed legislation giving Missouri Southern State University the opportunity to offer joint graduate programs in cooperation with other public four-year institutions in the State of Missouri (RSMo 173.005). The Coordinating Board for Higher Education oversees implementation of the cooperative programs to ensure the most efficient use of state resources and the highest quality of advanced educational opportunities.

During the ceremony, the presentation of the academic hood to master's degree recipients represents a compelling, highly symbolic moment in both the candidates' lives and in the commencement ceremony. The hooding ceremony for the cooperative graduate programs at MSSU signifies a scholarly and personal achievement. Colors of the hoods were carefully selected to represent both institutions and the corresponding fields of study.

MSSU will continue to develop these and other programs in order to fulfill its mission and to meet the needs of the growing population and economy of the region.

Candidates for Honors & Degrees

Baccalaureate Degrees

Summa Cum Laude

Grade point average 3.90 or above

Ales, Mary Grace
Bergen, Micah J. ‡
Blancett, Erin Suzanne
Blankenship, Mary Katelyn
Bramwell, Nathaniel Seth †
Cranor, Lyndsey Dawn
Dayton, IL Min *
Delzell, Christopher David
Dimza, Michelle Rose ‡
DuMond, Morgan Brooke †
Flint, Victoria Shalayne

Flores, Leah
Fry, Emily Nichole
Gastel, Charles Dominic
Heston, Jessica Danielle ‡ *
Hicks, Eli G.

ALMA MATER

Words by Mary Laird,
Class of '39

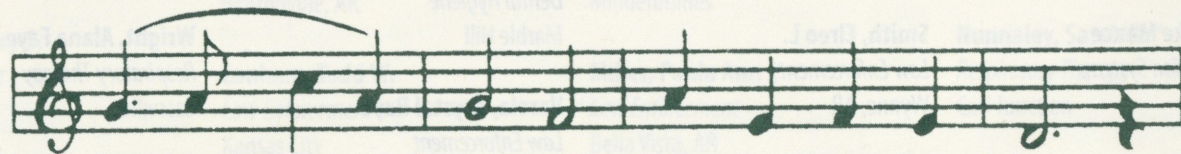

Music by Emerson Jackson,
Class of '39

Our Al - ma Ma - ter, we ho - nor thee,

shap - ing and guid - ing our de - sti - ny.

Af - ter we have part - ed as the years roll by;

we'll keep each me - mo - ry hail, hail to thee.

Missouri Southern State University's "Alma Mater" was drafted during the Joplin Junior College second year by a group that included Mary Laird, Joan Epperson, Enos Currey, Ellen Beasley, and Emerson Jackson. Laird was principally responsible for the lyrics while Jackson set it to music. It was first sung during a Class-Day program in 1939.

Points of Pride

Quality faculty and academic programs ...

- MSSU students placed first and second at the **Missouri Society for Respiratory Care State Conference**.
- For the second consecutive year and the third in the last four, students in the **MSSU Radiologic Technology program** placed 2nd at the Missouri Society of Radiologic Technology (MSRT) Conference Student Bowl that included 14 teams from Radiologic Technology programs across the state, including the University of Missouri in Columbia.

Outstanding athletic programs ...

- | | |
|--|---|
| • 159 MIAA Academic Honor Roll Members | 14 MIAA Academic All-MIAA Members |
| • 13 MIAA Presidential Scholar Winners | 55 All-MIAA Athletes (Not including Baseball) |
| • 25 All-Region Athletes (Not including Baseball or Outdoor Track) | 5 All-Americans (Not including Baseball or Outdoor Track) |
| • 8 Academic All-Americans (Not including Baseball or Outdoor Track) | MIAA Men's Basketball Player of the Year |
| • NCAA Division II Regional Men's Basketball Player of the Year | Seven programs ranked nationally at one point in the year |
| • Men's basketball division ii regional participants | Women's cross country individual national qualifier |
| • Four indoor track and field national qualifiers | Back-to-back-to-back sonic trophy series champions |

As of the 2011 Fall Semester, the Missouri Southern Athletic Department had roughly 345 student-athletes on 14 team rosters. Of those athletes, 159 of them had a 3.0 GPA or higher, 61 had a 3.5 GPA or higher and 13 had a perfect 4.0 GPA.

Exceptional students ...

KELSEY JENSEN

Kelsey Jensen of Kansas City, Mo., who will graduate in December with a degree in international studies, has been selected for a summer internship with the U.S. Embassy in Brazil. Jensen will work with advisors to Thomas A. Shannon, Jr., U.S. Ambassador to Brazil, from June 4 to Aug. 6 and focus on the relationship between Brazil and the United States. The internship will be split between Brasilia and São Paulo.

She will live with a host family provided by Rotary International. This will be her second time in Brazil; in 2008-09, as a high school student, she lived with four host families and learned Portuguese. Dr. Ann Wyman, associate professor of political science, helped Jensen secure the internship through the U.S. Department of State.

JOSHUA MASON

Joshua Mason, junior biochemistry major from Carthage, is packing his bags for a summer-long trip to France. Joshua will study at the Institut Pasteur, one of the world's most prestigious medical research and microbiology research facilities. The facility is located in Lille, France in the northern part of the nation, near Belgium.

He'll be involved in an internship to study immunotherapy for viral-induced cancers. This would include the Epstein Barr virus which has been found in Hodgkin's Lymphoma, nasopharyngeal cancers and other more obscure cancers primarily seen in the undeveloped countries of the world.

The types of cancers he will study have an immunological basis, something that some may not realize about the disease "Viruses deplete the immune system to the point where it cannot recognize cancer cells," Joshua explains. "The ultimate goal is to determine how to obtain an immune tolerance to these types of cancers.

Our goal in the biology department is to enable our students to enter a profession as well as receive a degree," Dr. Jackson says. "Essential to this end are many factors and undergraduate research internships like Joshua's are an essential component."

Dr. Jim Jackson, professor of Biology/Environmental Science, says internships help students in three major ways.

"The first is that they are directly involved in what their professional activities will be which can lead students to or, in some cases, away from professional goals," Dr. Jackson explains. "Secondly, a student's understanding and appreciation of a profession is magnified as well as broadened by an internship. Lastly, students are able to network and make connections and become friends with the most important professionals in the field. That has a lifelong benefit."

Successful graduates ...

MICHELLE DIMZA

Michelle Dimza of St. Louis, Mo. has been named "Outstanding Graduate" by the Alumni Association at Missouri Southern State University.

Michelle will graduate with a bachelor's degree in Biology. She is the daughter of Mike and Mary Dimza of St. Louis. She is a graduate of Notre Dame High School in St. Louis. She will graduate with a perfect 4.0 grade point average (GPA). She has been on the Deans' List all eight semesters of college. She has served as a biology tutor for the past three years, providing individualized learning for students in courses such as general and medical micro biology, anatomy and physiology, general biology, principles of biology, computer literacy courses and EMT certification courses. She has served as a tutor at the Exam Cram session each semester as a biology tutor for Project Stay and as a peer mentor for the MSSU First Year Experience.

Michelle has served as a team captain on the Missouri Southern women's soccer team for the past three seasons. She has been a four-year letter winner, as well as a four-year starter. She is a three-time All-MIAA selection and won the 2010 MSSU Leadership Award. She also was an MIAA Presidential Scholar, a three-time member of the MIAA Academic Honor Roll, as well as a three-time MIAA Scholar-Athlete.

Last year, she served as a research intern at the University of Minnesota Life Science Undergraduate Research Program. In that capacity, she performed a compositional analysis of heat resistant salmonella using surface enhanced raman spectroscopy (SERS). She also presented an independent research project at the University of Minnesota Poster Symposium and participated in weekly career development luncheons, bioethical seminars and Women in Science panel discussions.

After graduation, Michelle will play soccer for a Women's Professional Soccer League (WPSL) team in Seattle, Wash while studying for the Medical College Admission test (MCAT).

Her career goal is to become a physician in a field in which she can incorporate medical research.

CAITLAN AND LUKE SMITH

Caitlan (Bermel) Smith, who came to MSSU because of its international mission, is the 2012 Outstanding Graduate in International Studies. She received a B.A. in International Studies and a minor in Latin American Studies in December 2011. Caitlan, a 2007 graduate of Lee's Summit North High School, selected MSSU over Drake University. She was accepted into MSSU's Honors Program and graduated with a 3.65 GPA.

She had several international experiences while attending MSSU. She and her husband, Luke, whom she married in July 2009, received a \$4,900 grant from the McCaleb Initiative for Peace in 2011. They traveled to Guatemala in June for an in-depth examination of the many problems surrounding education in that country and produced a supplement to The Chart published on Nov. 4.

The Smiths also spent the Fall 2010 semester at the American University in Bulgaria through the International Student Exchange Program (ISEP). Caitlan's first study abroad experience came in the summer of 2008, when she completed Dr. Dorothy Bay's General Biology course in Costa Rica. Caitlan distinguished herself on campus through her participation in the Model United Nations Club. "She became increasingly accomplished as a Model UN delegate over her four years of participation, finally being asked by Paul [Teverow] and me to head our delegation to Chicago last fall, when we represented Rwanda," said Dr. William Kumbier, club co-sponsor.

Caitlan and Luke, who received an English degree from MSSU in December 2011, have been accepted into the Peace Corps. They will leave for West Africa in July on a 27-month commitment to teach English.

Alumni Accomplishment...

KIMBERLY HARPER

Kimberly Harper, BA History 2004, was selected for a Missouri Humanities Award for a Distinguished Achievement In Literature, in recognition for her book *White Man's Heaven* [University of Arkansas Press, 2010]. She began her research for the book while studying history at MSSU.

Academic Attire

As early as the twelfth century the first modern universities, at Bologna and Paris, were centers of European learning. The usual garb of the time, for both churchmen and laymen, was a long gown which was necessary for warmth in the unheated buildings of the day. Scholars, generally members of churchorders, wore such robes and also hoods to protect their shaven heads. Later, skull caps were worn on the head, and the hood became a cape which could be pulled over the head in unpleasant weather. The hood was also sometimes used to collect alms from the more affluent members of the community. As additional universities were founded, distinctive forms of the gown and hood were adopted by their faculties. Variations indicated ranks within the institutions. Strict rules were published and in some cases punishment cited for tailors who departed from the authorized design.

The academic hat was a later development, adapted from the headdress of the ordinary people. Academically, it was originally worn as a symbol of the master's degree, and existed in various forms: some were round, some square and some had a tuft in the center. The flat, square "mortar board" of today originated at Oxford University in England.

Academic costume came to America in 1754 with the founding of King's College, now Columbia University. Styles became quite varied as they were in Europe, but in 1895 a group of American college and university representatives met to establish a uniform system of academic apparel for this country. This led to the establishment in 1902 of an "Intercollegiate Code of Academic Costume." The American Council of Education formed a committee in 1932 to review the 1895 code, which was again reviewed and revised in both 1960 and 1965.

There are today three basic types of gowns and hoods. The bachelor's gown has pointed sleeves and is designed to be worn closed. Recipients of the associate degrees wear gray gowns designed like the bachelor's gown. The master's gown is designed with an oblong sleeve, open at the wrist and with an arc cut away at the front of the sleeve. It may be worn either open or closed. The doctoral gown is of a full design with voluminous sleeves, and it also may be worn open or closed. Unlike the other two, the doctoral gown is faced down the front with velvet and with three velvet bars on the sleeves. These may be black or a color related to the subject of the degree. Thus, arts, letters and humanities may be white, business degrees may be drab or sapphire blue, education uses light blue, fine arts is brown, music is pink and science is golden yellow, to name a few.

The caps are always black, with a black tassel for baccalaureate degrees and a tassel of the color indicated above for master's. Doctoral caps usually have a tassel of metallic gold color.

The hoods worn by master's degree recipients are lined with the official colors of the institution awarding the degree. The binding and edging of the hood is silk or velvet in the color pertaining to the subject area. Doctoral hoods are longer and designed somewhat fuller, but the colors again are those of the institution granting the degree for the lining, and of the subject for the wide edging. There exists a small bachelor's hood, but generally it is not used in this country.

The hoods represented in MSSU ceremonies are a combination of colors from each of the collaborating institutions. Traditional colors and corresponding fields of study are:

Brown:	Fine Arts
Crimson:	Journalism
Dark Blue:	Philosophy
Golden Yellow:	Science
Lemon Yellow:	Library Science
Light Blue:	Education
Pink:	Music
Purple:	Law
Sage Green:	Physical Education
Scarlet:	Theology
White:	Arts, Letters, Humanities
Yellow Brown:	Commerce, Business, Accountancy
